

REMARKS

In response to the points raised by the Examiner regarding the objection to the drawing re Figures 52 and 53, kindly note the following:

1) Figure 52 is amended so the drawing reads consistent with the specification on page 35, lines 8-17, by eliminating unnecessary arrows and reference numerals pointed out by the Examiner.

2) The specification, page 35, lines 18-24, is amended so the subject matter of Figure 53 of the drawing reads consistent therewith, in effect by incorporating reference numerals shown in Figure 53 into the description thereof in the specification.

3) Although not mentioned in the drawing objection, Figure 28 of the drawing is amended to eliminate unnecessary arrows.

It is respectfully submitted that these amendments to the specification and drawing do not touch the merits of the patent application, do not raise new issues, and thus should be entered.

Enclosed is a copy of sheet 15/23 and 22/23 showing these changes, as well as a copy thereof with the changes incorporated therein and marked "REPLACEMENT SHEET".

Serial No.: 10/661,234

Also enclosed is a formal drawing including 23 sheets
with the replacement sheet therein.

Reconsideration is respectfully requested.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'William J. Barber', written in a cursive style.
